Importance of Cleanliness

The picture given in the paper, represents the scene of Rural life and environment. It is known to everyone that the health and cleanliness are related to each other. There is also a slogan, "Cleanliness is next to Godliness". God also loves clean environment.

We are seeing that due to modernisation and development, the conditions of environment are becoming less common.

→ In the rural areas no attention is given on cleanliness. No drainage system for the houses are available due to which the dirty water flows and collected. Also, the animals are given bath near the sources of water, such as wells, ponds. Due to which the water becomes polluted. When animals and humans come in contact with this dirty water they become the victim of various diseases such as Dengue, Malaria, Chickens Crickets, Zika viral etc. which are generated due to various viruses & bacteria harmful in these water bodies. When they drink this water, then they suffer from diseases.

→ So, following the "Swachh Bharat Abhiyan" started by honourable P.M. Narendra Modi

we should try to keep our surrounding clean and free from disease. This is not the responsibility of one man but of all the people residing in the country.

Nowadays due to modernisation various types of vehicle have been developed. But along with this the chances of road-accidents also increased. The important reasons behind it are as follows:- not following the traffic rules, listening music at high pitch, over-taking the vehicle in a wrong way, driving the vehicle overloaded, after drunk and with high speed, not travelling in a correct lane, not abide by the traffic rules etc. They causes a huge damage to the country. Especially, the young people believe that driving the vehicle with high speed is the sign of the gallantry.
