As a citizen of this locality I want to say that there is a lot of uncleanliness in Anand Nagas. As there are no dustbins in the locality so residents have to throw the garbage on road. There are heaps of garbage on the road which attract flies and stray dogs. The drainage system of the locality is not good. The drains are broken at many places due to which dirty water flows on roads. This becomes a breeding hub for mosquitoes. This causes a lot of diseases in the locality like cholera, malaria, etc. I kindly request you to look into the matter and do something needful.</p> <p>Thanking You Yours faithfully Rashmi</p>

As we all know that cleanliness has

Inspired by him our present Prime

mission on 2nd October 2014. To  
make this mission successful he himself  
cleaned the Valmiki Basti with others.

Many government workers inspired by  
him and cleaned many streets and villages.

In schools, colleges, this mission is  
applied. Due to cleanliness there are  
many benefits. It removes many  
communicable diseases like malaria...

We get everything fresh and pure.

Due to this we remain healthy and  
wealthy and increase our potential to  
do any work. If all are healthy then  
we can increase our contribution in
